The following text is full of words that should never see the light of day.

"You are reading a text that is full of mother fucking words that should not be read otherwise all the niggers and chinks will take offense. So you can write, petite girl with big ass tits, as you can see the word pass and petite but the words ass and tits does not. This is useful, if you have yvcomment or allow your users to post their own contents, this saves you a lot of time editing their fucking filthy mouths."

The original text is not touched, and you can always tweak your word list if misbehaved words do leak out.

Note: The list only contains a limited amount of english bad words, if you wish to donate to the list please do send a message so we can add to the list.

Update: 2012-08-15
