{/slide}{slide=I have not received my registration email}

Please wait a while longer, the email usually arrives but it is difficult to predict how long, but it should arrive within 24-48 hours. I am using standard Joomla registration so more often than not it should arrive. If not, send me a message so I can check.

UPDATE: As of 12/01/2010 Registration is now not necessary to download our modules. You may register if you wish us to update you on progress of our modules.

{/slide}{slide=I am having trouble downloading modules}

Please try different browsers, but I have tried it on IE6, IE7, Firefox, and Chrome, I have been successful in simulating a download. IE8 has been buggy at best. I have not tried Opera so I can't vouch for it. If all else fails, send me a message in support@jfriendly.net.
